48110	DV-350 Surgical Suction Unit with 1,500 ml Canister (AC/DC Unit with Rechargeable Battery)

The HD Video Endoscope is ideal for small and large animal practitioners providing a high quality, affordable endoscope for upper and lower GI examinations. With the 2.0 mm channel, the user may remove foreign bodies and check for pathology. Automatic air / water and suction port improves the ease and efficiency of procedures. Video Endoscope System includes: Biopsy Forceps, Grasper, Cleaning Brush, Case and Light Source.

The DV-350 Surgical Suction Unit is a portable and versatile high-vacuum, low-flow medical suction unit with a rechargeable battery pack providing approximately 40 minutes of on-the-go suctioning. Includes universal power adapter.

### Featured Product: Head Wedge™ Feline Cranial Positioner

Item	Product Description
52400	Head Wedge™ Feline Cranial Positioner

For use in feline dental imaging procedures, the Head Wedge™ is designed to make imaging difficult patients easier.

- Material does not interfere with imaging process
- Fixed base with two adjustable right-angle plates attached to nylon wing nuts
- Can be spread apart to create width, as well as pivot to create a right or left-hand wedge
- Slots can be expanded to hold different sensor sizes
